#P709 - Assembly Instructions

1. Select your material from a variety of hardwoods or solid core plywood.
2. Measure each pattern piece and cut the work pieces to size accordingly. Sand as necessary.
3. Make all pattern pieces by adhering the paper patterns to the work pieces with a repositionable spray adhesive. Cut the outer shapes and any interior designs. And drill where indicated.
4. Remove all paper patterns. Sand where needed. The edges can be rounded by sanding or using a small roundover router bit if desired.
5. Assemble by first attaching the Back to one Side, then attach the Bottom to the same Side. Next, attach the remaining Side. Now, attach this assembly to the Base, securing with glue and wire brads. Then, attach the Roof, and Crest, and finish as desired.
